THE ROOKLES, Best Days Of Our Lives

I'm never stopping When I'm rolling down the road Give me love and understanding All I need before I get old

Strange thing has happened Everything is turning green We are doing all we can And I can see, d'you know what I mean?

I can't hide this feeling deep inside We are having best days of our lives

Something is going on and we are rolling all the way The road is like a second home We're all together Day by day

Hello again, tell me how long has it been Since we've come and got it on? It's on, let it roll Rock and roll, oh yeah!

I can't hide this feeling deep inside We are having best days of our lives

Why am I sleeping?
Are we playing one more time?
We are doing all we can
It's time to say good luck and goodbye
It's time to say good luck and goodbye
It's time to say good luck and goodbye
