

# THE ROOKLES, Don't Even Try

I've got a feeling that I can't explain  
I saw the light and it shows the way  
Nothing to lose, but so much to gain  
This is the perfect chance, do you wanna play?

People live their lives and never make things happen  
They don't wanna dream like you and me  
I've made up my mind, I see the change's coming  
I know I can do it, yes I'm gonna do it

There is no better time

Don't even try to stop me now  
Cause I'm not looking back  
Don't ever say there's no way out  
I won't give up  
I'll never let you bring me down  
I'm just feeling that I'm alive

Back in the open like a rolling stone  
This is the moment when my shadow's gone  
It's even better to be on your own  
No more just waiting for the things to come
