## The Smashing Pumpkins, Hello Kitty Kat

Say hello, before you say goodbye I should go, before you make me cry She wants to bleed, every drop inside of me But I aim to please the little girl inside of me, too

Yeah, yeah You know I hate to say Oh no, I always stay I don't wanna be like the others please

Who is sorry now? Who is sorry now? If I show you how, will you let me down

Slit my wrists and die a whore Love to love to love what you adore I can give you anything, but please let me Be your everything... please

Yeah, yeah You know I hate to say Oh no, I always stay I don't wanna be like the others please Who is sorry now? If i show you how Will you let me down? Will you let me down?

Who is sorry now? Who is sorry now?

My love is weakness My love is oh so wrong My love is sadness My love is oh so strong My teeth are razor sharp My love is fucking strong I'll be with you, but not for long

Ooh ooh ooh

Yeah, Yeah You know I hate to say Oh no, I always stay I don't wanna be like the others please

Who is sorry now? Who is sorry now? Who is sorry now?

If I show you how, Will you let me down Please let me down Please let me down
