

# The Smashing Pumpkins, Saturnine

The clever make the world weary  
To pull it from its moorings  
To fawn the young wicked roost  
To weather the coming storms

They are inside now  
They are inside  
They are inside now  
Saturnine

How I love to waste your time  
Saturnine  
Saturnine

Goodbye all you widows  
Tearstained underneath  
Blessed to the many  
Who are seeking some relief

They are inside  
They are inside now  
They are inside  
They are inside  
You'll always run  
But you cannot find  
Saturnine

Saturnine  
Saturnine  
You were waiting all this time  
Saturnine  
Saturnine

Camera take this picture  
The wreckage is outside  
Quick may you hurry  
We are losing our light

We are inside now  
We are inside  
We are inside  
You'll always run  
But you'll never find  
Saturnine

Saturnine  
How I'd love to make you mine  
Saturnine  
Saturnine

To the ages I am speaking  
To the creatures I am sky  
Bloody simple features  
Everyone chooses sides

Shatter this faith broken  
Walk these summer miles  
Leave here while forgotten  
Carrying forth this child  
Saturnine
