

# The Smashing Pumpkins, Spaced

Dad dad  
Dad  
Dead dead  
Dead dead  
Dead  
Was I ever alive?  
Fucking makes you alive in one minute  
Solstice  
I am solstice filled with mercury  
Filled with mercury  
Liquid fucked  
See right through your heart  
See right through your heart  
Fuck your heart  
I am mercury liquid pure  
Hot, alive, dead  
Mucked fish eyes  
Doors  
I was born alive  
I'll fucking kill you  
I'll beat your soft baby head with my own hand  
Careful with that baby  
Don't ever say the h word around him  
Ashamed  
I am ashamed of my name  
Say it  
I hate the sound of your shit  
I think it means no good  
It means cheap, liar,  
Smart ass piece of shit  
Change it to raygun you fuck  
Billy the loon  
Billy the loon  
I am Mars  
I am Mars  
Billy addly addly addly...  
Your name causes shit  
While I may be no expert on this reality there is no God  
God is hurt  
God is cold  
Try that once  
God is dead  
There is not another one  
Battle  
Cold heart radio  
Feedback  
The pain  
Reoccurring messages of badness  
Reoccurring living bad dreams at the vortex of lost souls  
Wailing lost souls of shame  
We are in one hole  
Like a cup of mercury phosphate  
Brrr  
Showering  
Taste my shit you wench  
Lifting wailing lost souls who stand a chance  
My eyes darkly gazing and wondering  
Why why why?  
I was born whole  
Fractured divided shattered into a billion fragments  
A million piece puzzle  
A million piece jigsaw puzzle with no face  
And no head...
