

# The Smashing Pumpkins, Whir

I've wasted all my years  
Been chasin' all my fears  
For another brighter than you  
I gave in long ago  
To make it to the show  
But its not easy  
When you're alone  
All your prayers  
In my ears  
Don't you care  
Whir yourself around  
Just to fall back down  
Whir yourself around  
My honey  
Little girl  
C'mon lets go for a whirl  
It's still early  
The sun is sleeping  
She says she wants to marry me  
She says she wants a baby  
It's not easy  
When you're scared  
Whir yourself around  
Just to fall back down  
Whir yourself around  
All your prayers  
In my ears  
Don't you care
