

The Sneg, Detention

Don't want that shit into my face
Tell me I'm free
Open a cage
Just let the bars and let me out
Ready to bite
Ready to shout

No words to share
It sounds like love
But it's not clear

Checking out just there is no hurt
Surviving in a flirt
Making sure we'll never find
What's real in our minds

Love manipulation
Love detention

Love manipulation
Love detention

Love

No words to share
It sounds like love
But it's not clear

Just cross the line
Don't waste the time
My hands fade out right on your side
No words to share
They won't be clear
Dissolve in me and show no fear

One, two, free
You'll take a look at me
One, two, free
You'll take a look at me
Yeah
One, two, three
You will take a look at me
One, two, three
You will take a look at me

Love

No words to share
It sounds like love
But it's not clear
