

# The Stylistics, We Can Make It Happen Again

[INTRO]

Take me in your arms like you used to do  
Make me live again like before  
There is nothing else that I asked of you  
Than just to be the one you love once more  
We can make it happen, happen again  
We can make it, we can make it again  
We can turn the clock back, baby, and then  
We can make it, we can make it again  
Remember, remember how we used to laugh together  
Cried together, the crazy things we tried together  
Remember you said that you'll be mine forever  
Never thought that it would ever end  
We can make it, we can make it again  
We can make it, we can make it again  
Touch me in the night like you used to do  
Make me feel your love like before  
Every part of me wants to be with you  
So take my heart and take my soul once more  
We can make it happen, happen again.....  
[repeat]
