

The Sweet, Never Say Forever

Another rolloercoaster ride from dusk 'til dawn
Another soul ascends as another child is born
Our fate is written in the stars

(Ever and evermore)

We're ruled by Jupiter, Venus and Mars

I wanna live forever

I heard you say

But never say forever

That ain't the way

'Cause I don't wanna live life by design

So never say forever

It's such a long, long time.

Perpetual emotion. take me for your slave

I'm under your command from the cradle to the grave

Into the future with eyes closed

(Ever and evermore)

The road to nowhere where nobody goes

I wanna live forever

I heard you say

But never say forever

That ain't the way

'Cause I don't wanna live life by design

So never say forever

It's such a long, long time.
