

The Swellers, Making Waves

I still think it's amazing
how much baggage I take in.
I used to let things slide.
Now I'm sick, it's contagious.
Write that shit then erase it.
I'm on the other side of enemy lines.
So thanks a lot.

I'm making waves, and you're not.
I'm done taking bad advice if that's fine by you.
I hate being so well versed.
Hard getting to the chorus.
Remember that bridge we burned?

I still have trouble getting over it.
Now I see it so clearly.
Everyone who is near me,
they're showing the simple signs
of the acquaintance kind.
It's not like true friends are so hard to find.
Now I can't stand a single word you say.
So if the world ends tonight, we're better off that way.
You talk shit a lot

'cause I'm making waves and you're not.
I'm done taking bad advice if that's fine by you.
