

The Tea Party, Great Big Lie

God is pressure
God is pressure more or less
And it takes a lifetime
A life of lies to make a mess
Ah but you suffer
I see you suffer with a smile
Well look around yourself,
Baby don't you think you're in denial

And it hurts so bad
To see your garden of debris
Don't make a move now
It could be the thing that sets you free

All you say now
Is a great big lie
(just say you didn't mean)
And you'll still deny
It's a great big lie

You pulled the plug
You pulled the plug to save your face
And i'd be the first
To reconcile the grace
Ah but you suffer
I see you suffer with a smile
Look around yourself
Don't you think you're in denial

All you say now
Is a great big lie
(just say you didn't mean)
And you'll still deny
It's a great big lie
