

# The W's, Pup

Followed you home one night after work  
Saw you go inside and watch Captain Kirk  
Ten o'clock rolled around the lights went out  
That's when I decided to roam about

I want to see your house from the inside  
I want to feel like it's mine all mine  
I dreamt about you every night and day  
That's why I want you to come out and play

I crawled through your window cause your door was locked  
The floor was creaking as I walked

Strolled through your kitchen and into your den  
That's where I found my old friend

I got some food and put it in his dish  
He started to growl cause it smelled like fish

I want to see your house from the inside  
I want to feel like it's mine all mine  
I dreamt about you every night and day  
That's why I want you to come out and play

I saw some lights outside the door  
Guys in uniforms and a whole lot more

One guy jumped me and wrestled me down  
The next thing I knew I was being hauled downtown

I couldn't figure out why they locked me up  
when all I wanted to do was feed your pup

I want to see your house from the inside  
I want to feel like it's mine all mine  
I dreamt about you every night and day  
That's why I want you to come out and play
