The W's, Pup

Followed you home one night after work Saw you go inside and watch Captain Kirk Ten o'clock rolled around the lights went out That's when I decided to roam about

I want to see your house from the inside I want to feel like it's mine all mine I dreamt about you every night and day That's why I want you to come out and play

I crawled through your window cause your door was locked The floor was creaking as I walked

Strolled through your kitchen and into your den That's where I found my old friend

I got some food and put it in his dish He started to growl cause it smelled like fish

I want to see your house from the inside I want to feel like it's mine all mine I dreamt about you every night and day That's why I want you to come out and play

I saw some lights outside the door Guys in uniforms and a whole lot more

One guy jumped me and wrestled me down The next thing I knew I was being hauled downtown

I couldn't figure out why they locked me up when all I wanted to do was feed your pup

I want to see your house from the inside I want to feel like it's mine all mine I dreamt about you every night and day That's why I want you to come out and play
