## The Weeknd, Belong To The World

I know you want your money, girl Cause you do this every day, okay The way you doubt your feelings And look the other way Well, it's something I relate to Your gift of nonchalance Nobody's ever made me fall in love With this amount of touch

I'm not a fool I just love that you're dead inside I'm not a fool I'm just lifeless too

But you to taught me how to feel When nobody ever would And you taught me how to love What nobody ever could

I know I should leave you
And learn to mistreat you
Cause you belong to the world
And ooh girl, I want to embrace you
Domesticate you
But you belong to the world

And I know that I'm saying too much
Even though I'd rather hold my tongue
And I'll pull you closer holding on to
Every moment till my time is done
And this ain't right, you've been the only one to make me smile
In such long, I've succumbed to what I've become, baby

I'm not a fool I just love that you're dead inside I'm not a fool I'm just lifeless too

I should leave you And learn to mistreat you Because you belong to the world And ooh girl, I wanna embrace you Domesticate you But, you belong to the world /3x

You belong to the loneliness of filling every need You belong to the world, you belong to the world You belong to the temporary moments of a dream
