

# The Who, Medac

Henry Pond had no fun  
Had a face like a currant bun  
This adolescent little fella  
Was nicknamed by his friends &quot;Old Yella&quot;;

The doctors gave him creams and lotions  
To try to sooth the boys emotions  
But all in vain; the acne stayed  
Henry's hopes began to fade

Then, when just about to crack  
He found another cream - Medac

When Henry in the mirror peered  
His pimples all had disappeared  
Henry laughed and yelled &quot;I got 'em!  
Me face is like a baby's bottom&quot;;
