## The Who, The Quite One

Everybody calls me the quiet one You can see but you can't hear me Everybody calls me the quiet one You can try but you can't get near me I ain't never had the gift of gab But I can't talk with my eyes When words fail me you won't nail me My eyes can tell you lies

Still waters run deep so be careful I don't drown you You've got nothing to hear I've got nothing to say Sticks and stones may break your bones But names can never down you It only takes two words to blow you away

Everybody calls me the quiet one But you just don't understand You can't listen you won't hear me With your head stuck in the sand I ain't never had time for words that don't rhyme My headd is in a cloud I ain't quiet - everybody else is too loud

Still waters run deep so be careful I don't drown you You've got nothing to hear I've got nothing to say Sticks and stones may break my bones But names can never down you It only takes two words to blow you away.
