

Theophilus London, Rio (feat. Menahan Street Ba

If you wanna build a home
Where the season's fairly warm
Summer birds they sing their song
To you and me
You're 300 miles away
I'm not coming home today
Not until the flowers bloom
For you and me

Even if you're in rio de janeiro
I'll give you all my affection, affection
Making it easy, when you're lonely
You can just call me, I'll be there

All the girls in rio, all the girls in sao paulo, alright

Girl I'm down and on my knees
Saying darling won't you sing for me
Can we meet at lover's lane
In the morning rise
You coming down on me
This feeling is all I need
The vision of love is purely bright
Through the darkest nights

Even if you're in rio de janeiro
I'll give you all my affection, affection
Making it easy, when you're lonely
You can just call me, I'll be there
Even if you're in rio de janeiro
I'll give you all my affection, affection
Making it easy, when you're lonely
You can just call me, I'll be there.
