

Therion, Call of Dragon

From a lonely star
Beyond the verge of universe
A sound is echoing
(A) call from another world
Lights from Sirius
Will take you from oblivion:
Dagon is here again
When you watch the sky
You feel a longing for the stars
Enter the limitless
Answer the call you hear
When you take the step
To free yourself from modern life
The sky will shine again
Call of Dagon!
The Deep One is calling you
Call of Dagon!
Hear the night sky sing 2x
Call of Dagon!
It's the sound of universe
Call of Dagon!
Somewhere in your dreams 2x
Dagon sing
Stargoddes
Sothis dance
