

# Third World, Rock The World

(chorus)

Lets rock the world with music give Jah creation this love  
When I look around oh Jah the world is up side down;  
if tears could fill your eyes we'd be drowning,  
so many Questions and not enough solutions,  
let's bring some happiness to everyone  
Let's rock the world with music give Jah creation this love  
Let's rock the world with music give Jah creation this love  
Dont let nuclear brutality sneak up on you and me, so don't  
you bring no e.s.p. Inna my-buggy yea, let's dance cause that's  
Naturality and Naturalist is you and me  
we can make hatred an illusion  
So let's rock the world with music give Jah creation this love  
lets rock the world with music give Jah creation this love

I know one day just like the morning sun Jah music will be heard by everyone,  
we are moving in the positive Rock away the negative, So here's my advice,  
here's my advice, here's my advice to future everyone.  
Let's rock the world with music give Jah creation this love  
Let's rock the world with music give Jah creation this love  
You shoulda-see-me rock you  
You shoulda-see-me rock you  
You shoulda-see-me rock you  
And if you see me rock you  
and If you see me rock you
