

# Thrice, Image Of The Invisible

We're more than carbon and chemicals  
We are the image of the invisible  
Free will is ours and we can't let go  
We are the image of the invisible  
We can't allow this, the quiet cull  
We are the image of the invisible  
So we sing out this, our canticle  
We are the image of the invisible

[Chorus:]

We all were lost now we are found  
No one can stop us or slow us down  
We are the named and we are known  
We know that we'll never walk alone

We're more than static and dial tone  
We are the image of the invisible  
We're emblematic of the unknown  
We are the image of the invisible  
So raise the banner, bend back your bows  
We are the image of the invisible  
Remove the cancer, take back your souls  
We are the image of the invisible

[Chorus]

Though all the world may hate us, we are named  
The shadow overtake us, we are known

We're more than carbon and chemicals  
Free will is ours and we can't let go  
We are the image of the invisible  
We're more than carbon and chemicals  
We are the image of the invisible  
Free will is ours and we can't let go  
We are the image of the invisible  
We can't allow this, the quiet cull  
We are the image of the invisible  
So we sing out this, our canticle  
We are the image of the invisible

[Chorus x2]

Raise up the banner, bend back your bows  
Remove the cancer, take back your souls
