

Thunderstone, Side By Side

Time has come
Now it's our turn to start building up our way to the
stars
Here and now
Scream and run
For the dreams we have and for the visions that we
have fought so long

Years after years
No hesitaton we're heading forward
There's nothing that could stop us now
We are here to stay, never fading away

We have a power and will
Dreams to fulfill
And the hunger is growing day by day
Together we'll ride to the sky, high above
United we will march through the lands
Side by side

We are as one
We breath the same air, we walk the same endless road
We share it all
Joy and sorrow
No limitaions
As long as the grip will hold there is only one way to go
Full speed ahead
We are rolling over
