

Tiesto, Summer Nights (feat. John Legend)

I see you in my head
You ain't like the rest
You ain't bringing me down, baby
You're right next to me
We're making history
The sun's about to go down, baby

I wanna be wherever you are, baby
Impossible to take it too far

Summer nights
Getting high like the first time
You and I making lust forever

I see you In my bed
Getting undressed
It's about to go down, baby
It wasn't just a dream
I guess it's meant to be
I got to tell you right now, baby

I wanna be wherever you are, baby
Impossible to take it too far

Summer nights
Getting high like the first time
You and I making lust forever
