

Tina Bride, Party @

Get up on your feet, let me see you groove
Turn it up feel the heat and let your body move
So what you say to that?
Where's the party at?
Get up on your feet, let me see you groove
Turn it up feel the heat and let your body groove
So what do you say to that?
Where's the party at?

Last night you asked my number
I took you for a fool
Italian suite, kinda cute
I thought I'd play it cool

Get down and boogie baby
That's what you said to me
You're so hot, you're so yum
I'm gonna get me some

It's Friday night and I feel great
Now it's getting late
But it's all right now
You're telling me that this is cool
like to break the rules
From time to time

Get up on your feet, let me see you groove
Turn it up feel the heat and let your body move
So what you say to that?
Where's the party at?
Get up on your feet, let me see you groove
Turn it up feel the heat and let your body groove
So what do you say to that?
Where's the party at?

The beat is pumping baby
The DJ's got the groove
Let's get loud, going out
It's time to make you move

You touch my body baby
I feel I lose control
Let's get down to the sound
Till my feet don't touch the ground

It's Friday night and I feel the great
Now it's getting late
But it's all right now
You're telling me that this is cool
Like to break the rules
From time to time

Let's groove, let's move, let's break the rules
