

# Tina Turner, (Darlin') You Know I Love You

I know you love me baby  
But you never tell me so  
I know you love me baby But you never tell me so  
If you dont tell me that you love me  
Im gonna pack my bags and go

I live across the street from the jukebox baby  
And all night long they play the blues  
I live across the street from the jukebox baby  
And all night long they play the blues  
And everytime they spin their records  
Honey it makes me think of you

Theres one little song in particular baby  
That always sticks in my mind  
Theres one little song in particular baby  
That always sticks in my mind  
Every time they play it baby  
I start right into cryin  
Oh baby please dont leave me

Now Im gonna crawl across my bed baby  
Cry myself to sleep  
Yeah Im gonna crawl across my bed baby  
Cry myself to sleep  
And in my dreams I hear you saying  
Lover please come back to me
