

# Tina Turner, If This Is Our Last Time

Even though the night is early there's a fire that whispers hurry  
Darling please turn off the lights and lock the door  
Come lay down here beside me tell me that I'm soft and pretty  
And love me like you never have before  
If this is our last time make it last me for a lifetime  
Don't hold back the love you feel inside why should passion be ashamed  
If this is our last time make it last me for a lifetime  
Leave me with enough of sunshine to carry me through the rain

In the morning you'll be leaving but tonight there'll be no grieving  
I'll have lots of time to cry when you're gone  
Let's not waste one precious moment take all of me I'm still your woman  
And love me up until the break of dawn  
If this is our last time...
