Tina Turner, Whatever You Want

(Anita Baker, T. Dayne & Dayne & T. Zarr)

Whatever you want me to do
I will do it for you
Whatever you want me to be
I will be what you need
Because it's love that I feel
Whenever you're really near
I'm feeling sensual I can't rely on myself
I'm wanting you and no one else
You've got me wrapped up
Cause times takes what love heals
Wherever you are I know it's for real

[Chorus:]

Whatever you want me to do I will do it for you Whatever you want me to be I will be what you need Because it's love that I feel Whenever you're really near I'm feeling sensual And I, I know that it's real

I know you've had pains in your heart That have torn you apart I know you've been safe on your own But together we're strong Because it's love that I feel Whenever you're holding me I'm feeling passionate And I can't deny it in myself I'm wanting you and no one else You've got the power Cause love takes what time steals And deep in my heart I know that it's real

[Chorus:]

Whatever you want me to do I will do it for you Whatever you want me to be I will be what you need Because it's love that I feel Whenever you're next to me I'm feeling sensual

I know (I know), I know (I know) that it's real Cause times takes and love heals Wherever you are I know it's for real I know, I know that it's real

Whatever you want me to do baby, baby, I will do, darling, do it for you
Whatever you want me to be, yeah
I will be everything
Because it's love that I feel
Whenever you're really near
I'm feeling sexual
It's time that I breathe
For the love that pleases me
Too easily, easily, baby
