We bring you 3D

I know I've always been down
No matter who else was around
Those crazy things we've been through
Will always make me love you

Chorus:
I'll never let you forget me
You know I'm the best girl you've ever seen
Just when you think you'll never see me
I will be
I can bring it to you in 3D

Chorus

There's more than one side of me
There's more than one place to see
You made my dreams come true
Nothing could replace you

Chorus
