Todd Agnew, Shepherd

Shepherd, your sheep are weary Cold and tired, battered and burised and torn Shepherd, your sheep are hungry We got what we want but we still need something more

Chorus:

We need to hear your voice Whatever You might say We just need to hear your voice Show us the way

Shepherd, your sheep are lost We chased our wants that we thought were needs Now we can't get home Shepherd, your sheep are longing We ate and we ran, we played and we danced, but we're empty

(Chorus) x2

Shepherd, these sheep are Yours We tried to be king, but we don't want to anymore
