

# Tokio Hotel, Kings of Suburbia

We are young  
With open eyes  
Blinded by  
The citylights  
Lose Control  
To feel alive  
Just another day  
In paradise  
Diamond Sky  
Diamond Sky  
You and I  
You and I  
We are the  
Kings and Queens  
Of suburbia  
Somewhere in time  
We don't know where  
We are  
Come on  
We are who we are  
Come on  
Come on  
Have you heard  
The silent scream  
Boys and girls  
Born to be free  
Love is our gasoline  
Livin' on this endless dream  
God grant me the serenity  
To accept the things I cannot  
change  
Courage to change the  
Things I can and wisdom to  
know the difference  
Join me under diamond  
skies  
everything will be alright
