

Tokio Hotel, Never Let You Down

Know I NEVER LET YOU DOWN
Know I NEVER LET YOU DOWN
Know I NEVER LET YOU DOWN again

Headphones, headphones, stereo in my ear
Rainbows, rainbows, above my head I see you
Hello, hello, like I was never here
Ain't got nobody hanging off that I can feel
Black out, black out, I'm on my way on town
Patience, patience, accelerating sounds
Sold out, sold out, I kind of crossed the crown
??? I persuaded and now I'm staring at the dance hall

Now I see your face again
This time it's love but more a friend

Know I NEVER LET YOU DOWN
Know I NEVER LET YOU DOWN
Know I NEVER LET YOU DOWN again
Baby I will never, never, let you down again
Baby I will never, never, let you down again

Don't stop, don't stop, let's finish what we've started
So hard, so hard, so close to broken-hearted
I got, you got will take us to the stars and
I promise everything that you I cannot keep

Now I see you dance again
This time for real we're more than friends
I wanna fly with you above the world
I promise you I'll be a better man again

Know I NEVER LET YOU DOWN
Know I NEVER LET YOU DOWN
Know I NEVER LET YOU DOWN again
Baby I will never, never, let you down again
Baby I will never, never, let you down again
Never let you down
Never let you down
