

# Tom Petty And The Heartbreakers, You And Me

Take a look  
At what I got  
I can't promise  
You a lot

But you and me  
And the road ahead

I can't change  
You from yourself  
You gotta want it  
All that's left

Is you and me  
And the road ahead

Wherever that wind might blow  
Wherever that river rolls  
You know I will go with you

Lookin' over  
The mountain's crown  
The water roars  
And tumbles down

Like you and me  
And the road ahead

Wherever that wind might blow  
Wherever that river rolls  
You know I will go with you

Just you and me  
And the road ahead

Just you and me  
And the road ahead
