

Tom Walker, Something Beautiful (ft. Masked Wolf)

I've been tryna find my way to leave
Stuck in the belly of the beast
It's getting hard to breathe
Broken down, I'm turning in my sleep
Nothing is ever too steep
I'm tryna find my peace

Cause i've been feeling up, down
Put out
Lost counts
Of every sin
Just tryna find a new way
True say
REeal chande
It's not too late
Fight away the darkness
Neew down, new day
Will break

I'm just holding on to happiness from all the pain
Something beautiful /3x
I'm just holding on to happiness from all the pain

Drowning so much, I'm affected by the ripple
Feeling so low that I can't even see the middle
Dark days, lost ways, made me feel little
Tryna find the words, like we be playing with the riddle
I know now I've been tryna hold myself
Looking in the mirror, I don't know myself
Emotions on loan, like I owe myself
Head out the window when I'm screaming for help

Cause i've been feeling up, down
Put out
Lost counts
Of every sin
Just tryna find a new way
True say
REeal chande
It's not too late
Fight away the darkness
Neew down, new day
Will break

I'm just holding on to happiness from all the pain
Something beautiful /3x
I'm just holding on to happiness from all the pain

We find a the ight on darker days
We seiz the joy through all the pain
We feel the love
Won;t hesitate
Take every Chance that comes our way
The little things,
We appreciate
We fight for truth
A heavyweight
And evert win
We celebrate /2x
