Tom Walker, Wait for You

I am just prayin' you can figure this out And when there's nothing left You know i'll still be around And if all ot this is dragging you under I'll remind you of the world and its Wonder I am just prayin' we can figure this out

These better dreams
They seem to last
And even through it's in the past

I know ut's hard for you to talk Bail your soul and open up I will wait for you I will wait for you Can;t pretend to understand I'll be here to hold your hand I will wait for you I will wait for you

I can't imagine everything you've been through You've taken the bad Times and meda 'em good Cause when eyerything is dragging me under You'll remind me of the world and its Wonder And i am just glad that we have figure this out

These better dreams
They seem to last
And even through it's in the past

I know ut's hard for you to talk Bail your soul and open up I will wait for you I will wait for you Can;t pretend to understand I'll be here to hold your hand I will wait for you I will wait for you
