

# Tommy Lee, Sister Mary

Tommy Lee  
&quot;Sister Mary&quot;  
Tommyland: The Ride  
2005

Don't be afraid, I'm here for you  
And the audience departed as I gave her heart away from me  
I saw the suns expanded view  
And I thought I heard the answers but I let 'em slip away from me

Sister Mary innocent lost her way  
She stood up on the table, gave it away  
Sister Mary innocent all I can say

What's wrong with you is all that's wrong with me

Once those skies, weren't they azure blue?  
But the papers always seem to have the ugly things to say, we choose  
Oh Jesus, Jesus, we still love you  
Just as long as proofs a burden we don't ever have to bear for you

Sister Mary innocent lost her way  
She stood up on the table, gave it away  
Sister Mary innocent all I can say  
What's wrong with you is all that's wrong with me
