Tommy Page, I Think I'm In Love

By t. page

There's the winter moon Shining through my window But I'm not asleep Because I miss you so If you could have known The way I felt today And this feeling's real Oh why'd you go away

Chorus:

Well I think I'm in love You're so far away

It's too late to say I'm in love Well I think I'm in love

If I could have your heart For just one more day I would tell you dear That I'd wish you'd stay Now you're gone for good And I can't take the pain Oh I'll be here for you I wish you'd feel the same

Chorus
