

# Tone Damli Aaberge, I know

I try harder, more than ever before  
Slowly I started to trust my heart so much more  
Now I know that I'm wiser  
I've learned a lot from this game  
Clearly I see that, all we have been through has just made us stronger  
I know, I know  
It will turn out just fine (Standing by you)  
Is a promise I'll keep and (I know, I know)  
We will stumble and fall (problems are good)  
In the end they feel so small  
Oh, oh, oh  
Broken hearted, make it all feel untrue  
Lies detected, make such a distance to you  
And I know that all over, yet we learn a lot from the change  
Clearly I see that all of these things they have just made us stronger  
I know, I know  
It will turn out just fine (Standing by you)  
Is a promise I'll keep and (I know, I know)  
We will stumble and fall (problems are good)  
In the end they feel so small  
And I never wanna see, as like that again  
And I never want to just be a friend  
I can go on all alone  
It's wrong, simply wrong  
Keep holding on  
I know, I know  
It will turn out just fine (Standing by you)  
Is a promise I'll keep and (I know, I know)  
We will stumble and fall (problems are good)  
In the end they feel so small  
(I know I know)  
I know, I know, well turn out just fine (standing by you)  
(I know I know)  
I know, I know, well turn out just fine (problems are good)
