

Tony Christie, Caribbean Nights

When you feel your world has gone
And it's hard to carry on
You just don't know what to do
And it seems that nothing 's going right for you.
Listen now to what I say
You can change those blues away.
Take a trip on a plane or a ship
To a place that's so nice, it's a real paradise.
All those Caribbean nights,
The tropical delights, all magic's calling clear to me
I hear you calling.
All the moon and the stars so bright.
Your senses will excite on Caribbean nights.

Now the world is out of reach
When you step down to the beach
Sunny sky and sea all blue
And those palm trees swinging by in front of you
When the sunset's on the day, then the steel bands start to play

Take a trip on a boat or a ship
To a place that's so nice, it's a real paradise.
All those Caribbean nights,
The tropical delights, all magic's calling clear to me
I hear you calling.
All the moon and the stars so bright.
Your senses will excite on Caribbean nights
