

Tori Kelly, Should've Been Us

Walk around with my head down,
but I can't hide with these high heels on
downtown in the thick crowd,
but it's just you that my mind is on
dressed up, got my heart messed up,
you got yours and I got mine
it's unfair that I still care
and I wonder where you are tonight

thinkin it could be different,
maybe we missed it
thinkin it could be different,
it could, it could

it should've been us,
should've been a fire, should've been the perfect storm
it should've been us,
could've been the real thing, now we'll never know for sure
we we're crazy, but amazing,
baby we both know
it should've been us, us
it, it, it should've been us

back and forth like a tug o' war,
what's it all for; do I want it back
still got a little flame for ya,
even tho you drove me mad
now and then, I pretend
that it's you when I close my eyes
you got yours, I got mine
but I wonder where you are tonight

it should've been us,
should've been a fire, should've been the perfect storm it should've been us,
could've been the real thing, now we'll never know for sure we we're crazy, but amazing,
baby we both know it should've been us, us
it, it, it should've been us

it should've been us

thinkin it could be different,
maybe we missed it
thinkin it could be different,
it could, it could

it should've been us,
should've been a fire, should've been the perfect storm it should've been us,
could've been the real thing, now we'll never know for sure we we're crazy, but amazing,
baby we both know it should've been us, us
it, it, it should've been us

it should've been us
