That's where you niggas got it fucked and twisted  
They ain't scared about just a regular black man in America  
Yeah, they fear that nigga too  
But they fear the independent man  
They fear the nigga who goes out and gets his  
They fear the nigga who goes out and says  
I ain't talking no for an answer  
They fear the man that says  
I'ma do it, i'ma make the Corporation  
They fear the man that thinks above the employee position  
They fear the man that wants to be a boss  
They fear the balck man in America who's accomplished  
Wehn you step outside  
When you're in the Benz  
Whe you're in the Bentley  
And you shine and you got your ice and jewelry on  
They fear you , nigga  
Niggas gotta be stupid to not see wha's going on out there  
They tryna black out every single succesful black man in America
