

Tory Lanez, In The Air

That's where you niggas got it fucked and twisted
They ain't scared about just a regular black man in America
Yeah, they fear that nigga too
But they fear the independent man
They fear the nigga who goes out and gets his
They fear the nigga who goes out and says
I ain't talking no for an answer
They fear the man that says
I'ma do it, i'ma make the Corporation
They fear the man that thinks above the employee position
They fear the man that wants to be a boss
They fear the black man in America who's accomplished
Wehn you step outside
When you're in the Benz
Whe you're in the Bentley
And you shine and you got your ice and jewelry on
They fear you , nigga
Niggas gotta be stupid to not see wha's going on out there
They tryna black out every single succesful black man in America
