

# Tory Lanez, Lady Of Namek

Baby, I want you to leave, but you stay?  
My brain and my heart ain't the same  
So will I let you in?  
As long as you won't do this to me again  
Baby, when I left my heart in your hands  
You left me scarred at the dance  
Baby, let's not do this again

We're just friends  
Picked you up with a smile on my face  
Wanted to end the night at my place  
We need to, baby  
But I always know how this ends if you gon' play me  
Felt like I left out the prom with my date  
You didn't read all the signs in my face  
That tonight was supposed to be our night

Well, would you look at the time?  
Look at the time  
I'm racing against it  
Your heart to my heart  
To my heart  
Come place it against it  
I stare at your soul  
Stare at your soul  
I'm facing temptations  
I wanna do right, we both want the sensation

So can we  
Play with the stars tonight?  
Can we make them all align?  
So what's it gonna be? Yeah  
Cause tonight's the night, so, baby  
Can we?  
Play with the stars tonight  
Play with the stars tonight  
Can we make them all align?  
So what's it gonna be?  
Cause tonight's the night, so, baby?

She left me back in my room with no trace  
Why the fuck'd you come?  
Just to show face?  
It drives me crazy  
It doesn't matter what I do  
You still don't play me  
Baby how many times have I tried to play it safe?  
You wiped the smile up from my face, Little baby  
If you can trust me, we will be alright!

Well, would you look at the time?  
Look at the time  
I'm racing against it  
Your heart to my heart  
To my heart  
Come place it against it  
I stare at your soul  
Stare at your soul  
I'm facing temptations  
I wanna do right, we both want the sensation

So can we  
Play with the stars tonight?  
Can we make them all align?

So what's it gonna be? Yeah  
Cause tonight's the night, so, baby  
Can we?  
Play with the stars tonight  
Play with the stars tonight  
Can we make them all align?  
So what's it gonna be?  
Cause tonight's the night, so, baby?
