

Tove Lo, Over

Stay up until dawn
I can't go home again now
After tonight
Seems like I'm out of your life
Apologize
No, it won't make it better
What can I say?
It's all too late

Tell me, is this the part when
When we part ways forever
Tell me, is this the part when
Part when we are

Over
Wish I was, wish I was
Sober
Guess we are, guess we are
Fighting all this fight
You're so cold without the love
There is nothing left out of everything we were
Over
Guess we are over

Walk through the door
You see that I've been crying
Head hanging low
You say "where the fuck have you been?"
Should I deny
And maybe dodge this bullet
You read my mind
I just can't lie.

Tell me, is this the part when
When we part ways forever
Tell me, is this the part when
Part when we are

Over
Wish I was, wish I was
Sober
Guess we are, guess we are
Fighting all this fight
You're so cold without the love
There is nothing left out of everything we were
Over
Guess we are over

Over /4x
Guess we are over

I can tell that you know when it kills you
What you need me to say's gonna hurt you
Wanna run, but I stay 'cause I have to
Have to tell you

And I know that you're so gonna hate me
You did what I did, I would hate you too
I would hate you too
And we are

Over, over
Wish I was, wish I was
Sober

Guess we are, guess we are
Fighting all this fight
You're so cold without the love
There is nothing left out of everything we were
Over
Guess we are over
Guess we are over
