

Tracy Bonham, Brain Crack

Have you ever heard the sound
Of your head in the ground
And you're afraid to say
And it won't go away
That's the sound of your brain cracking
That's the sound of your brain cracking
That's the sound of your brain cracking
That's the sound of your brain cracking
Have you ever heard the sound
Of your head on the ground
And you're afraid to say
And it won't go away
That's the sound of your brain cracking
That's the sound of your brain cracking
That's the sound of your brain cracking
That's the sound of your brain cracking
