Tracy Byrd, Needed

You say you hate to bother me Baby I'll be right there You're having one of those days I can see right through this phone Nothing's out of my way You can't ask too much I'm just thankful to be the one You lean on So lay your troubles on me That's what I live for Makes me feel so complete It's the reason I was born Baby what makes love love And gives my life meaning Is to be needed Needed I know this life ain't easy Sometimes we try so hard That we just end up overworked And overwhelmed That's why I've got this shoulder And two arms open wide You won't ever have to do It by yourself So lay your troubles on me That's what I live for Makes me feel so complete It's the reason I was born Baby what makes love love And gives my life meaning Is to be needed Needed Baby what makes love love And gives my life meaning Is to be needed Needed I wanna be needed Needed
