

# Travis Scott, My Eyes (ft. Sampha & Bon Iver)

When I stare in your eyes  
You'll be there forever  
To watch our life (To watch our life together)  
You just like going to Heaven (My heart)  
Oh, where are you taking me? (Oh, yeah, oh, yeah, oh, yeah, oh, yeah)  
I'm fallin', and, I'm drownin'  
But, you're takin' me

One thousand on my feet  
Stacks spreaded on my seat, ten thousand on my eyes (Eyes)

Rollie Pollie on my wrist  
Gotta make a flight, big day, slummin' on FaceTime  
Fifty K, wonderin' why I'm stormin' off, no race  
I'm brought in by the bliss  
I was sworn in by the kiss  
Late from the country cadence  
No peacemaker, I sweep up cases  
Goin' on a walk with a new suit on  
But, new suit dead, Bottega, that's on it  
Give me the heat from the sleep, then I harm her  
Cupid creep in, sleep with a Hummer  
Three time to get me teen  
Still same phone, AT&T  
Still givin' news very vividly  
Beef in there, fuck a beef  
Smokin' on some vegetari' (Huh)  
I need no beef, no cheese (Yeah)  
Even when I eat, they cheat (Uh)  
Everytime we meet naive

When I stare in your eyes  
You'll be there forever  
To watch our life (To watch out life together)  
You just like going to Heav (My heart)

One thousand on my feet  
Stacks spreaded on my seat, ten thousand on my eyes (Eyes)

Yeah, it's mad how it gets so deep  
It's mad how I gets so hot  
It's mad how you get me by (By)

Tell me, tell me  
Tell me, tell me  
Yeah, yeah, yeah, yeah

It's me, it's me, it's me, it's me, it's me

Look in my eyes, tell me a tale  
Do you see the road that's matchin' my soul?  
Look, tell me the stats whenever the smoke clear out of my face  
Am I picture-perfect, or do I look fried?  
All of that green and yellow that drip from your eyes is tonic  
Tell you demise, I went to my side  
To push back the ceilin', and push back the feelings, I had to decide  
I replay them nights, and right by my side all I see is a sea of people that ride wit' me  
If they just knew what Scotty would do to jump off the stage and save him a child  
The things I created became the most weighted, I gotta find balance and keep me inspired (Hah)  
Yeah, yeah  
That shit wild, instead I'm a hero  
I took it from zero, LaFlame you sayin'  
I read it from miles, this shit wasn't love  
They got me fucked up, I put you on bust and take you around

A couple of guns inside of that school, I gave 'em the tools to get it up ground  
They say they the ones when they make the errors  
Can't look in the mirror, that shit wild  
Stand on the stage, I give 'em the rage, I'm turnin' it down, can't turn into flower  
We do it for streets, we do it for keeps, we do it for rights  
Got 52 weeks  
This shit ain't for pleasure, I'm comin' to tweak  
This shit is forever, and it ain't feelin' me  
Ridin' and rappin' around  
I take me beat and I turn into a beast  
Bought the crib on a hill, made it harder to reach  
Bought a couple more whips 'cause I needed more speed  
Bought a couple more watches, I needed more time  
They ain't buy the condo, it was part of the lease  
And I bought some more ice 'cause I brought in the heat  
Made her cancel my dick, so she never gon' cheat  
If I gave you a day in my life or a day in my eyes, don't blink
