

Travis Tritt, Leave My Girl Alone

You better leave
You better leave my little girl alone
You better leave
You better leave my little girl alone
Before I go and get evil minded
And I go and do somethin' wrong
You call up my house just yesterday
And I picked up the extension
And I heard every word you say
Why don't you just go on man
Go on and leave my little girl alone
Yeah before I get evil minded
And I go and do somethin' wrong
Yeah you call up my house
All hours of the night
Let me tell you mister
That's a damn good way to start a fight
Yeah why don't you just go on
Man and leave my little girl alone
Before I get evil minded
Lord and go and do somethin' wrong
Yeah you better leave baby
You better leave my little baby alone
I'm gonna tell you what hoss
You better leave
You better leave my little girl alone
Before I get evil minded
And I go and do somethin' wrong
