

# Tres.B, Let It Shine

I waited on the night to fall upon the earth  
I saw a blackened fire come up from the sand  
Just below the rock teetered on the edge  
Lies a distant fall just clear enough to see  
And now I wait for you to come  
Come let, let it shine  
So come, come let it shine

One more shadow falls upon this wicked life  
Just as rain that falls on the crooked tree  
The withering of all the sorrows on the earth  
Just as tears that come from behind the bark  
And now I wait for you to come  
Come let it shine  
So come, come let, let it shine  
Im waiting for you by the riverside

So come, come let, let it shine  
Let it shine  
Im waiting for you by the riverside  
So come, come let, let it shine
