

Trey Songz, Song Goes Off

Know you imagined too
You, me getting back too
You, me been pase due
Nothing else matters
Let's talk about it the morning after
Girl, they won't know if we take off
All your friends in the bathroom drunk
I just can't let you walk off
Still got some pieces to my heart

So good to see you here
We both know it's been too long
Show me just how you feel before song goes off
Back like we used to
This time I won't lose you
I still adore you
You always loyal
I'm going show you just how I feel
Before the song goes off

Who's making love to you?
Heard you was making "uhs"
Heard that he love you too
But that don't really matter
Let's talk about it the morning after
You know I won't make you choose
But your friends talking to my crew
That loves only me and you
Tell me what we have to lose

So good to see you here
We both know it's been too long
Show me just how you feel before song goes off
Back like we used to
This time I won't lose you
I still adore you
You always loyal
I'm going show you just how I feel
Before the song goes off
