Tricky, Call Me

D'na: I'm calling you I'm calling you now And now won't wait And now won't change now Or rearrange it might get strange now it might get strange now Tricky and D'na: Just fallin' free Just fall in me And i'm your coffin And I'm your coffin For endless sleep now For endless sleep now Little sunbeam I hear you scream I feel your heat now I feel your heat now Here's to one way sleep now I hear trees scream Ain't the people mean? What do they mean? It's time to sleep now It's time to go now I wait for you, I wait for you I wait for you, I wait for you I wait for you Little sunbeam I can hear you scream I can feel your heat now I can feel your heat now Here's to one way sleep now I hear trees scream Ain't the people mean? What do they mean? It's time to sleep now It's time to go now I wait for you, I wait for you I wait for you, I hate for you

I wait for you, i hate for you

I wait for you, I wait for you I wait for you, I hate for you

I can feel your heat now It's time to go now

Hate for you

I hate for you Hate for you I hate for you
