Tricky, Carriage For Two

Terry Hall:

The first hundred years are the toughest

On this bubble

An open sky, flying high

Take a bride, get some trouble

Tricky:

The first one will do

I'm just passing through

The second one needs more

I've been here before X3

Terry Hall:

Springtime falls, summer calls

You slip and slide until you hit december

Believe my eyes, they'll bleed you dry

If I was an ingenious

I'd lose my temper

Tricky:

The first one will do

Just passing through The second one needs more

I've been here before

I've been here before

Wanna make me weak while you cry

Not such a thing, 'till you die

Gotta go I get high X2

Deceiver deceived us

And I deceived them

Carry my troubles home

Married with the humble

Terry Hall:

The first hundred years are the toughest

I'm getting smouthred

Life is just one bloody thing

After another
